A bit of history and background information about the!

Schlachtplatte

The word is derived from *schlachten*, "to slaughter", and *Platte*, "dish", because, traditionally, it is only eaten on the day of **slaughter**; before the invention of refrigerators blood and sensitive organs like **liver** had to be prepared straight away. Meat, which did not have to be consumed immediately was preserved by **salting**, **drying** and **smoking**. The slaughtering day offered a rare opportunity to eat fresh meat which explains why the *Schlachtplatte* is a rather lavish meal.

Originally these slaughtering days took place mainly in the autumn. This meant that not so many animals had to be fed over the winter, the meat could be preserved for longer in the cooler temperatures and the farmers had more time after the last harvest for turning it into **ham** and **sausages** which could then be smoked over the winter hearth fire.

Masskrugstemmen is a Bavarian feat of strength and endurance where contestants hold a 1-liter stein of beer (which weighs about 5 pounds) out in front of them at shoulder level for as long as they can.

We started with 5 strong contestants ...and then there were 4, 3, - until it got too hard and we finished with two equally deserving winners!

Well done boys!
