Annual General Meeting Luncheon Sunday 16th April

How to Take a Shot of Alcohol

Taking a shot with a friend or group of friends can be a unique bonding experience.

First, take the shot in your hand. Probably, there will be a toast. After clinking your glass, raise it to your lips and quickly swing your head back as you essentially pour the shot into your mouth. Sip it down in one gulp quickly and do not let it sit in your mouth. It will burn a little bit when it goes down your throat, but it will be over fast.

It looks like there are even different ways to hold the glass!
