Now a bit of information about the meaning and purpose of the pink ribbon:

The **pink ribbon** is an international symbol of breast cancer awareness.

Pink ribbons, and the color pink in general express moral support for women with breast cancer. Pink ribbons are most commonly seen during National Breast Cancer Awareness Month.

The color pink is considered feminine in modern Western countries. It evokes traditional feminine gender roles, caring for other people, being beautiful, being good, and being cooperative.

The pink ribbon represents hope for the future, and the charitable goodness of people and businesses who publicly support the breast cancer movement. It is intended to evoke solidarity with women who currently have breast cancer.

Breast cancer organizations use the pink ribbon to associate themselves with breast cancer, to promote breast cancer awareness, and to support fundraising.

While specifically representing breast cancer awareness, the pink ribbon is also a symbol and a proxy of goodwill towards women in general. Buying, wearing, displaying, or sponsoring pink ribbons signals that the person or business cares about women.
